## Seesaw – Digital Student Portfolios

Dear Parents and Caregivers,

This term, students will get their own portfolios to document and share their work with you on the online application “Seesaw”. I’ll also use Seesaw to post whole class events and share class activities using the inbuilt application. It’s the easiest way for you to see what your child is working on in the library. All posts and comments uploaded must be approved by myself prior to being live on the app. You will only be able to see any item that your child is connected to. You will not be able to see any other child’s work, unless your child is involved, or the post is tagged as having everyone in it.

As part of this new feature, your child will upload photos, videos, and other information to Seesaw. I will approve all posts. If your child is under 13, he/she needs your consent so they can have their own portfolio - please sign below!

If you would like to sign up for Seesaw to follow what your child is doing in class and see this portfolio, please download the Seesaw app for iPhone or Android, or you can go onto [web.seesaw.me](http://web.seesaw.me).

### WHAT IS SEESAW?

- Seesaw empowers students of any age to independently document what they are learning at school.
- Students capture learning with photos and videos of their work, or by adding digital creations. Everything gets organized in one place and is accessible to teachers from any device.
- Student work can be shared with classmates, parents, or published to a class blog. Seesaw gives students a real audience for their work and offers parents a personalized window into their child's learning
- Our goal is for every family to fill out and return the slip below and connect online with our class portfolios as soon as possible! Feel free to ask me any questions.

**Jenner Beeche**  
Teacher Librarian
